

SAN FRANCISCO COMMUNITY COLLEGE DISTRICT
ADMINISTRATIVE PROCEDURE MANUAL

Title: DISTRICT VISION AND MISSION STATEMENT	Number: AP 1.02
Legal Authority: California Education Code Section 66010.4	CCLC Number: AP 1200

Board Policy 1.00 constitutes the District’s Vision and Mission Statements. The College reviews these statements periodically. At minimum, review occurs prior to any significant revisions of the Education Master Plan. Any updates to the Vision and Mission Statements require broad input and are subject to Board approval.

The process for review relies on college-wide discussion fostered through the College’s formal governance structures so that all constituencies have opportunities for review and reflection, including discussion of quantitative and qualitative data. If discussion results in suggestions for potential updates, further feedback will be sought to ensure broad input. Following college-wide discussion and input, the Participatory Governance Council may recommend affirmation of the existing Vision and Mission Statements or it may recommend specific updates to either or both statements to the Chancellor, following the College’s formal decision-making process for Board Policies.

The District communicates its Vision and Mission on its website and in appropriate publications; any adopted updates will be promptly reflected in these locations.

The Chancellor will delegate the responsibility to carry out the process described in this administrative procedure to the senior administrator with oversight of institutional effectiveness.

Recommended by Participatory Governance Council: April 21, 2022 Approved by Chancellor: May 19, 2022	Page 1 of 1
