Accreditation Steering Committee Update

Presented to the Participatory Governance Council (PGC) – May 19, 2022

Submitted by Kristin Charles and Sheri Miraglia, Accreditation Steering Committee Co-Chairs

Accreditation Steering Committee Objectives for 2021-22

1. Monitor the timeline and process for developing the Institutional Self Evaluation Report and ensure that there is broad participation
2. Receive draft responses to the Standards and other elements of the ISER and provide feedback
3. Finalize draft ISER for Fall 2022 Collegewide feedback
4. Prepare and submit annual and fiscal reports to ACCJC
5. Respond as necessary to requests from ACCJC related to being on enhanced monitoring

Progress Related to Objective 1 (Monitor ISER Timeline and Process/Ensure Broad Participation) and Objective 2 (Receive Draft ISER Responses and Provide Feedback). The Institutional Self Evaluation Report (ISER) Teams have been revising their drafts based on feedback from the Accreditation Steering Committee co-chairs and members/alternates. In addition, we have been collecting feedback from various committees and will share those responses with the ISER Teams for consideration at the end of May.

The drafting process has included identifying potential improvement plans associated with all subsections of the Standards; this list is a living document that we will be updating as we go. All are subject to change; we may still identify improvements within those that state "None to date."

We still plan to circulate the draft ISER collegewide and hold forums during Fall 2022.

Progress Related to Objective 3 (Finalize Draft ISER). We will produce a final, edited draft during Summer for release in Fall.

Progress Related to Objective 4 (Prepare and Submit Annual and Fiscal Reports). We submitted the Annual Report and Fiscal Report on April 8, 2022.

Progress Related to Objective 5 (Respond to Requests Related to Enhanced Monitoring). Actions to address ACCJC's concerns regarding our fiscal health are ongoing.
